

Energy Analysis [3D_NVE_N300_rho0.200_Tinit1.0_period]

Instantaneous Energy

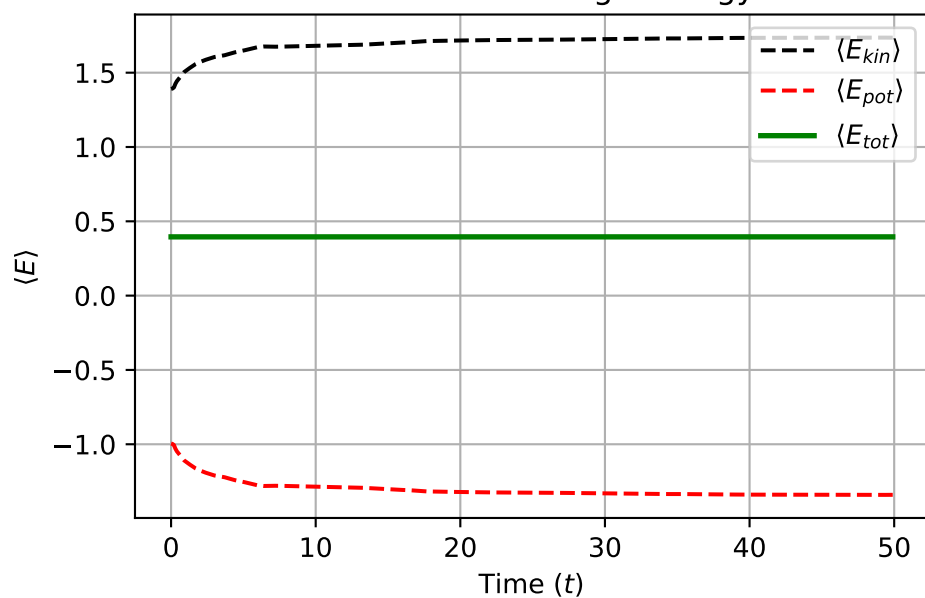

Instantaneous Fluctuation

$$\Delta E = \frac{E(t) - E_0}{|E_0|} \times 100$$

Cumulative Average Energy

Average Fluctuation

$$\langle \Delta E \rangle = \frac{\langle E(t) \rangle - E_0}{|E_0|} \times 100$$
